

## AN ARCHITECT OF EMPIRE

### Lord Milner Resigns His Work IN SOUTH AFRICA.

Course Condemned by British Anti-Imperialists — Africans Say He Provoked Conflict.

London, Oct. 13.—With the single exception of the Morning Post, no London paper contains anything of the resignation of Lord Milner as high commissioner of South Africa which was announced yesterday. Editorially the Post eulogizes Lord Milner's great ability, and refers to the extreme difficulty that will be experienced in finding a suitable successor. It mentions Lord Balfour of Burleigh and Sir Arthur Lawley as names that have been under consideration. Lord Milner resigned on account of ill-health, brought about by the prolonged strain in grappling with the situation, which is daily becoming more difficult, owing to the financial and racial troubles of the country. Lord Milner will come home at Christmas and after consultation with him his successor will be appointed. Colonel Sir Edward Ward, permanent under-secretary of state for the War Office, and formerly director of supplies of the South African field force, is considered likely to get the appointment.

Last year a team of "high position and influence in Johannesburg" wrote home to England: "The Crown is Lord Milner, inflexible, avaricious, ill. He is killing himself, but he is also killing the country." Lord Milner has now stopped killing himself. Whether South Africa will now breathe easier remains to be seen.

#### LOSS OF A MILLION.

Winnipeg Suffers From a Disastrous Morning Fire.

Winnipeg, Man., Oct. 12.—Never in the history of Winnipeg has the city been visited by a more appalling fire than that which last night destroyed two of the important business blocks and in two hours did damage estimated at nearly a million dollars. The fire was remarkable for the marvelous rapidity with which it spread. At one period it looked as if the conflagration was about to rival those of Toronto and Ottawa, but the fire was checked and danger to the Union bank and Leland hotel was averted. No lives were lost. The burned buildings are the Bulman block, Ashdown's hardware store and the Duffin block. Other buildings were badly scorched. Loss \$800,000.

New Bullman block, with stock value \$200,000, totally destroyed; J. H. Ashdown's block value \$500,000, totally destroyed; Davis block, partially damaged; Rialto block, badly damaged by water, smoke and heat.

#### SCORES BISHOP POTTER.

Delegate to Episcopal Convention Attempts Speech Denouncing Tavern.

Boston, Oct. 12.—The house of deputies of the Episcopal convention sat as a committee of the whole today to discuss the proposed canon forbidding marriage by a divorced person, while the former partner is living. Joseph Packard of Baltimore assumed the chair.

While the debate was in progress a commotion was caused by John C. Buxton of Winston, N. C., who attempted to link the divorce evil with the liquor question.

Mr. Buxton is the deputy who, on the opening day of the convention, attempted to read a resolution censuring Bishop Henry C. Potter of New York for opening the Subway Saloon. In his remarks today he first expressed the opinion that it would be better for the church to curb the liquor traffic before changing the canons on marriage.

#### AL RAY'S BEST TIME.

Made 2:13 1/2 on Saugus Track on Monday.

Saugus started its two weeks meeting with some lively racing Monday. The 2:13 race was divided into two sections and Al Ray won the first in 2:12 1/2 from Commodore Henry, Sapphire, Little Ruby, Daniel Webster and Mace. In the other division Newsboy and Al Ray got two heats each and Chief Wilkie, one, before the race went over. Corona, Billy Hard, Fuzzy, Reno K. and Miss Ormow were the other starters and the best time was Al Ray's 2:12 1/2. Kitty Wilkie beat eight others in the 2:15 trot, taking the last three heats of a six heat race. Jimmy Michael and Nancy Nelson were the other heat winners and the best time was 2:15 1/2 of Kitty Wilkie.

In reporting this race the Boston Herald says: "In the mean time, Vance Nuckols had been taking things decidedly easy with the Alexander gelding, Al Ray, but he cut loose in the third heat, and after a hot and somewhat noisy battle, in which the two geldings raced in company way out in front of the field, took the measure of Chief Wilkie in the last time of 2:13 1/2."

"He is by Alexander, and will never come back after that drive," was the way the talent figured out the situation before the fourth heat, but come back he did in 2:14 1/2, and the Chief Wilkie end was much the more tired of the two.

The fifth heat was won by Newsboy, the winner of the first heat, who stepped to the front in the stretch, just when it became apparent that Al Ray had Chief Wilkie beaten. Both of the two latter were very tired.

In the final heat pulled off yesterday at Saugus, Newsboy was first, Chief Wilkie second and Al Ray third—time 2:18 1/2. This gave the race to Newsboy.

#### BALLOONING AS A SPORT.

Will Be Premier Pastime of the Future, Says French Aeronaut.

Count Henri de la Vaulx of Paris, who holds the world's record for the longest distance traveled in balloons and who arrived in New York a few days ago, is positive that aerial travel is sure to be the premier sport of the future. He has traveled 16,000 miles in all by balloon and has never had an accident. Asked by the New York World for his opinion of ballooning, he replied:

"Every man who has once tasted the ecstatic delight of this sport feels himself a miserable and inferior being when on the earth. He really lives only in the depths of the atmospheric ocean, where visions of the supernatural unfold themselves before his eyes. Fictive how exquisite the sensations of the aerial voyager in his journey through the clouds without jolts, without fatigue, without dust, without insects, without customs officers, without police and, above all, his terrible club. The aeronaut, in short, travels without let or hindrance, veritably defying humanity entire. He has no fear of overstepping conventional bounds by his exuberance, and before his eyes are unveiled panoramas of incomparable beauty."

"Sometimes almost brushing the earth, he sails over towns and villages, valleys, plains and forests, peeping in to all civilizations and surprising their secrets, their joys and their sorrows. Again, lifted to great heights, he pierces the fogs and, completely lost to the eyes of earth, navigates his ship through a majestic sea of clouds, monarch of all he surveys in a world unknown to the dwellers below."

"When the aeronaut comes down to earth again he is always received with open arms. He brings something of the unknown with him—a little of that mystical heaven which makes the astronomers such devotees of their science."

"The enchanting view which constantly offers itself to the aeronaut elevates his soul and inspires noble thoughts. The life and the people in the midst of those wonders of the air become the most delicate and sentimental of poets."

It was a chain of the ordinary lap dog kind, braced and fastened to the waist of each child. A crowd collected and followed the woman. She refused to tell her name.
